01 CAREER OBJECTIVE

I am pursuing architect or specialist opportunities in Identity & Access Security. I bring experience in Microsoft Entra ID, Conditional Access, multifactor authentication and identity governance, supported by a background in infrastructure, cloud security and Microsoft Purview. My focus is to design access controls that support business needs and protect sensitive data.

02 WORK EXPERIENCE 2014 — PRESENT

Avanade Current role March 2026 — Present
Senior Security Consultant 7 months

Microsoft · Cloud Security Architect (Contractor)

Design cloud, identity and data protection controls in the Microsoft ecosystem.

Microsoft Entra ID Conditional Access MFA Identity Governance Microsoft Purview Microsoft 365

- Architect and implement cloud security, identity, data protection, and compliance solutions within the Microsoft ecosystem.
- Work with Microsoft Entra on Identity and Access Management (IAM), Conditional Access, multifactor authentication (MFA), Identity Governance, and identity protection, aligned with Zero Trust principles.
- Implement and enhance Microsoft Purview solutions, including Data Security Posture Management (DSPM), DSPM for AI, Information Protection, and Data Loss Prevention (DLP).
- Define strategies for classifying, labeling, protecting, and governing sensitive data in Microsoft 365, cloud applications, and AI workloads.
- Support enterprise clients in identifying and reducing risks related to data, identities, access, and AI use.
- Translate technical, regulatory, and business requirements into scalable security architectures aligned with Microsoft best practices.
- Advise clients on adopting security controls, compliance measures, and secure digital transformation.

ZAMP September 2024 — March 2026
Information Security Analyst II 1 year and 6 months

Data protection, security posture and governance across Microsoft 365 and cloud services.

Microsoft Purview DSPM DLP Netskope Microsoft 365 Azure

Documented outcome

Started data labeling and policy adoption for Marketing, Communications, Product Quality, Information Security and IT departments.

- Defined, implemented, and enhanced security controls to protect sensitive data, enterprise environments, and AI solutions.

- Worked on risk management, regulatory compliance, Brazil's General Data Protection Law (LGPD), and security throughout the Artificial Intelligence lifecycle.
- Applied Security by Design principles, including threat modeling, risk assessments, and security requirements definition.
- Implemented and administered DSPM, Cloud Access Security Broker (CASB), and Data Loss Prevention solutions.
- Managed information classification and protection, tokenization, and data masking.
- Continuously monitored security posture across Microsoft 365, Azure, and SaaS applications.
- Used Microsoft Purview and Netskope to strengthen governance, compliance, and data protection.
- Collaborated with engineering, data science, and architecture teams on strategic initiatives and audits.

Clavis Segurança da Informação

November 2023 – September 2024

Security Operations Analyst L2

10 months

Security operations and incident response. Progressed from L1 to L2 within Clavis.

Role progression: L1 → L2

Clavis Segurança da Informação

June 2022 – November 2023

Information Security Operations Analyst L1

1 year and 5 months

Provided cybersecurity consulting and developed security plans.

Sentinel Entra ID Active Directory AD FS Azure WAF Ansible Terraform

- Provided cybersecurity consulting and developed security plans.
- Monitored security events and responded to incidents.
- Developed security reports and action plans aligned with CIS, NIST, CISA, and ISO 27k.
- Managed vulnerabilities and applied security best practices in Microsoft Azure.
- Managed assets and secured on-premises devices, including firewalls, Active Directory, AD FS, and WAF.
- Worked with Microsoft Azure technologies, including Sentinel, Entra ID, and Azure WAF.
- Used Infrastructure as Code tools, including Ansible and Terraform, for infrastructure and cloud security.

Universidade Veiga de Almeida

April 2021 – June 2022

Infrastructure Analyst — Supervisor I

1 year and 2 months

IT infrastructure, service support and team supervision.

Azure AWS Windows Server Kaspersky EDR PowerShell

- Supervised the helpdesk team.
- Administered cloud and on-premises servers with Windows Server 2008, 2012, and 2016 across Azure and AWS.
- Administered Kaspersky Endpoint Detection and Response (EDR), including reports, tasks, and incident response.
- Used shell scripting with PowerShell, Cisco CLI, and Unix.

Ilumno

September 2015 – April 2021

IT Technician

5 years and 7 months

Infrastructure support for academic and call-center environments.

Active Directory Azure Windows Server Cisco Fortinet

- Supported IT infrastructure and provided management and technical support for the call centers of UVA and Unijorge universities.
- Worked with Azure Cloud and administered Active Directory and Windows Server 2008, 2012, and 2016.
- Supported Cisco local area networks (LAN) and Fortinet solutions: FortiGate, FortiAP, and FortiAnalyzer.

Universidade Veiga de Almeida

August 2015 – September 2015

Computer Lab Technician

1 month

Technical support for academic users and computer labs.

- Supported and advised the academic community on information technology matters.
- Performed scheduled maintenance and occasional computer repairs.

IT Infrastructure Intern

1 year

Helpdesk and first-line infrastructure support.

- Provided helpdesk services and Level 1 support.

03 KEY PROJECTS & ACHIEVEMENTS

ZAMP / Advisory contribution

User Lifecycle

Context & challenge

The lack of a defined user lifecycle affected the rollout of confidentiality labels in the Data Security Maturity initiative.

My contribution

Provided the Identity Management team with insights on user lifecycle requirements and their relationship to data governance.

User lifecycle

Identity & data governance

draw.io

ZAMP / Data Security

Data Security Maturity

Context & challenge

A phased security maturity program was needed in an environment with limited visibility of users across different management areas.

My contribution

Conducted proofs of concept and studied organizational processes, departments and data governance requirements as the analyst dedicated to the initiative.

Implementation

Implemented Microsoft Information Protection and Purview DSPM reporting, alongside license management and an on-premises AdminDroid deployment.

Documented outcome

Started data labeling and policy adoption for Marketing, Communications, Product Quality, Information Security and IT departments.
